

VELOCITY SERIES

Over 3x Faster Than USB2.0 or FireWire!

The new Velocity Series from CMS Products is the fastest desktop backup and disaster recovery solution available. The Velocity Series backup system incorporates CMS' user-friendly BounceBack Professional software and a high speed Serial ATA interface to create the industry's first externally bootable Windows device.

WORLD'S **FASTEST** EASIEST
BACKUP

POWERFUL FEATURES

Fastest Backup Available

With up to 1.5 Gb/s data transfer rates, the Velocity Series is the fastest desktop backup and disaster recovery solution available. The speed of the Velocity Series backup system is based on the Serial ATA interface which provides speeds over three times faster than USB2.0 or FireWire®.

External Bootability

The integration of BounceBack Professional and the Serial ATA interface provides the world's first externally bootable device for Windows® 2000/XP. In the event of a hard drive failure the Velocity Series backup system can be automatically configured to become the boot drive. You can even protect against operating system corruption by selecting the Velocity Series as the boot device in your systems setup.

Ease of Use

You don't need to know the ins and outs of computers to use the Velocity Series. Installation is a snap with very little time spent inside the computer. With integrated software features like automatic backup and scheduling the Velocity Series requires virtually no user intervention. Restoring files is simple with BounceBack Professional's QuickRestore module and because all data is backed up in a native file format, you can easily access or drag and drop your data.

Advanced Features

Powered by BounceBack Professional software by CMS, a leading provider of easy to use backup systems, the Velocity Series incorporates many advanced features to manage and backup your data. Utilize the synchronization feature to keep your home and work systems current or backup multiple versions of key data with the versioning module.

MINIMUM SYSTEM REQUIREMENTS:

Pentium
128MB RAM
15MB Free Disk Space

Interface: Serial ATA

Data Transfer Rate: Up to 1.5 Gb/s

Operating System: Windows® 2000/XP

BounceBack

PROFESSIONAL

Product Features	Description
Bootability	Boot directly from your Velocity Series backup drive.
